Product

Progressive Cavity Pump

Oily water transfer pump NE30PM

Progressive Cavity Pump is a positive displacement pump designed by metallic rotor and elastic stator.

It can transfer multi-phase medium of water, solid and gas.

It is the best low-shear pumping of all pumps and suitable for oil separator and sludge dehydrator.

After-sales service

Japan, China, Korea, S.E.Asia, Oceania, Middle East, South Asia, Europe, North America, South America

Record

Ship, Renewable Energy, On Shore

Catalyst transfer pump 3NE06H2
