

Diesel engines, propulsion (up to 200rev/min under)

W6X72DF

Low-speed Low-pressure Dual fuel engine "X-DF"

- ◆ X-DF applies the pre-mixed lean burn technology and can meet IMO Tier III requirement without the exhaust gas after-treatment.
- ◆ X-DF has advantages of lower Capex and Opex due to no requirement of a high pressure compressor.
- ◆ For safety concerns, X-DF uses low-pressure LNG. (< 16bar)
- ◆ X-DF can switch from gas mode to diesel mode immediately.
- ◆ X-DF is based on the low-speed two-stroke engine which is much proven in marine use.

DU-Wärtsilä X-DF engine is the best eco-friendly solution!
