

Exhaust Gas Heat Recovery Unit

MIURA MIURA CO., LTD.

<https://www.miuraz.co.jp/en>

GK-G

The GK-G exhaust gas heat recovery unit works with a composite boiler to recover the waste heat from the G / E for use as a heat source. It can contribute significantly to saving space and reducing fuel costs. Air pollution regulations in the IMO MARPOL Convention have resulted in changes in the conditions for exhaust heat recovery, and in future, it is anticipated that the amount of steam produced will be insufficient.

The GK-G makes effective use of the normally unused exhaust heat from auxiliary generators, enabling it to be used as a heat source.
