

MF/HF Radio Equipment JSS-2150/2250/2500

This MF/HF radio equipment is compliant with GMDSS Class A DSC. It supports continuous operation at maximum rated output across all communication modes, not limited to voice transmission.

Specs

| Model | JSS-2150 | JSS-2250 | JSS-2500 |
|-----------------------------|---|----------|----------|
| IMO type approved | ✓ | | |
| Output power | 150W | 250W | 500W |
| Regurations | IMO A.806(19), A.694(17), MSC68(68), MSC/Circ.862, IEC 60945 Ed.4 2002-08 | | |
| Transmission frequency | 1605.0 ~ 27500.0kHz(100Hz steps) | | |
| Reception frequency | 90.0 ~ 29999.9kHz(100Hz steps) | | |
| Frequency stability | Within ±10Hz | | |
| DSC watch keeping frequency | 2187.5kHz, 4207.5kHz, 6312.0kHz, 8414.5kHz, 12577.0kHz, 16804.5kHz | | |
| Type of emission | J3E, F1B, A1A, H2B, J2D, H3E(receiving only) | | |
| User programmable channel | Up to 400 (20 channels x 20 groups) | | |
| ITU preset channel | 1722ch | | |
