Parachute Anchor <PARA ANCHOR>

Para anchors are parachute-type devices that reduce drifting by keeping the bow facing the wind, Improving steering stability. We offer various models for different uses, including the K-type approved for rough weather, the FS type for leisure and small boat, the versatile FM type for coastal vessels, and the durable FG type with high deployment performance.

PARA ANCHOR FOR THE FISHING

Type	Diameter	Vessel Size	Towing Rope	Wind Up Rope
	(m)	(Metric Ton)	(mm)	(mm)
