BILGE SEPARATOR PURELIO

For Environment, More Compact,
More Efficiency, More easily maintenance
Future type Bilge Separator

Oil Content 5 ppm
(DNV type Approved)

Easy
Maintenance

Compact
Design

Low
Running
Costs

Sasakura manufactured and sold the first bilge separator in 1963.

In response to increasing environmental awareness and growing market needs in recent years, we have achieved an oil content of 5 ppm (DNV Type Approved under CLASS PROGRAMME DNVGL-CP-0208) in treated water.

Our bilge separators provide unmatched bilge separation performance and easy maintainability.
